

POND DYE

Looking to enhance the color of your pond water between Nature's Pond Conditioner treatments? Look no further - introducing Nature's Pond Dye.

Using a blended mix of pigments, this pond dye will produce an overcast natural deep color. Unlike other dyes on the market, Nature's Pond Dye produces a darker, rich, more genuine appearance that will complement the landscape and terrain. Not only are all our products eco-friendly, we want them to look all-natural too!

Nature's Pond Dye is manufactured from technical equivalents of Food, Drug and Cosmetic (FD&C) grade dyes. When used as directed they are safe for fish, livestock, irrigation, wildlife and other industrial uses. This product contains NO harmful chemical or residual metals that may negatively impact the environment. We believe in taking care of your water naturally, and this product is no exception.

Aside from concentration of pigments, color type and quality of product ingredients, the effectiveness of all pond dyes depend on many factors and variables. There are individual preferences and also certain key factors that dictate the amount of pond dye and frequency of treatment. Through years of experience working with 1000's of pond owners we have detailed out what is seen to be the best starting application rate for Nature's Pond Dye.

NATURE'S POND DYE FEATURES

- ✔ All-natural blend of technical equivalent of FD&C dyes
- ✔ Contains no harmful chemicals or residual metals

Product Name: Nature's Pond Dye
 Product Use: Water Enhancer/Shade
 Ingredients: Technical equivalent of FD&C grade dyes

Physical Data
 Physical State: Liquid
 Boiling Point: N/A
 Percent Volatile: 0%
 Soluble in Water
 Vapor Density: N/A
 Evaporation Rate: N/A
 Appearance: Dark Navy Blue

Fire and Explosion Hazard Data
 Flashpoint: N/A
 Extinguishing Media: N/A
 Special Fire Fighting Procedures:
 None

POND DYE

Factors such as length of time pond dye lasts, the amount used per treatment and frequency of treatments depends in many cases on:

- ✓ Individual water color preference
- ✓ Flow rates of water (in and out)
- ✓ Climate, region and time of year
- ✓ Depth of pond
- ✓ Use of the pond water
- ✓ Other water treatments being used

TREATMENT RECOMMENDATION:

Nature's Pond Dye is a concentrated blend and the typical application rates are as follows:

Surface Area:

Up to 4 Acre Feet (1 Acre, 4 feet deep)
Use: 1 Gallon

Up to 10 Acre Feet (2.5 Acres, 4 feet deep)
Use: 2.5 Gallons

Up to 20 Acre Feet (5 Acres, 4 feet deep)
Use: 5 Gallons

Average time between treatments is every 4-6 weeks, and can be used between Nature's Pond Conditioner treatments.

Application Instructions: Dilute 10 to 1 and distribute evenly around pond edge. If using aeration, pour into diffuser bubbles to disperse through water body.

Additional Information: Avoid contact with skin, eyes and clothing. Handle in accordance with good industrial hygiene and safety practice. Shake well before using and wash hands with soap and water after each use.

Storage Information: KEEP OUT OF REACH OF CHILDREN. Keep containers tightly closed in a dry, cool and well-ventilated place.
